ACKNOWLEDGEMENTS

I would like to thank Dr. Azarmanesh for all the support and guidance he has given me all these years at Urmia university.

I would also like to thank my thesis committee members, Doctors Doshabchizadeh, Sedghi and Golzan for taking the time to serve on my committee. The valuable contributions of Dr. Noori Nia are also greatly appreciated.

I thank Mr. Shagagi for his guidance in editing the thesis. Also I thank my friends and colleagues for the informative discussions especially Mr. Hassankhan who had done a great deal in computer programming.

Finally, I would like to thank Mr. Niknafs, Mrs. Touri, Mrs. Yasami and Mrs. Sarhangi for their helps in Urmia university.
