Department of English Language and Literature

We hereby recommend that this dissertation by

**Minoo Alemi**

entitled:

**Variations and Patterns in Native and Non-native  
Interlanguage Pragmatic Rating: Effects of Rater  
Training, Intercultural Proficiency, and Self-assessment**

be accepted in partial fulfillment of the requirements for the degree of  
Doctor of Philosophy (PhD) in Teaching English as a Foreign Language  
(TEFL)

**Committee on final examination:**

..... Advisor: Dr. Zia Tajeddin

..... Reader: Dr. Mohammad Khatib

..... Reader: Dr. Fahimeh Marefat

..... Examiner: Dr. Mahmood Reza Ataii

..... Examiner: Dr. Gholamreza Tajvidi

..... Head of the Department: Dr. Mohammad Khatib

**کلید واژه ها به زبان فارسی:**

سنجش منظورشناسی- زبان بینابین- نمره دهی توانش  
منظورشناسی- زبان بینابین -کنش کلامی عذرخواهی و رد  
درخواست- خودسنجی توانایی میانفرهنگی- نمره دهندگان  
بومی- نمره دهندگان غیر بومی .

**کلید واژه ها به زبان انگلیسی:**

Interlanguage pragmatic assessment, ILP rating criteria, Speech act, Apology,  
Refusal, Self-assessment, Intercultural proficiency, Native raters, Non-native  
raters

## چکیده

الف. موضوع و طرح مسئله (اهمیت موضوع و هدف)

گرچه مطالعات زیادی در مورد سنجش منظورشناسی انجام شده است بررسی این مطالعات نشان می دهد که تحقیقات در مورد معیارهای معلمان بومی و غیر بومی انگلیسی در مورد سنجش تولید منظورشناسی زبان آموزان انگلیسی صورت نگرفته است .

ب. مبانی نظری شامل مرور مختصری از منابع، چارچوب های نظری، پرسش ها و فرضیه ها:

این تحقیق چهار هدف را دنبال میکند هدف اول یافتن معیارهای نمره دهی به تولید کنش های کلامی عذرخواهی و رد درخواست توسط معلمان انگلیسی بومی و غیر بومی و کنشهای کلامی در و نیز تاثیر موقعیتهای تولید این زمان تکمیل گفتمان در معیارهای نمره دهی و نیز دو گروه است .

هدف دوم : کشف رابطه بین سنجش معلمان غیر بومی از توانش منظورشناسی خود و دقت نمره دهی آنان به این دو کنش کلامی در مقایسه با انگلیس معلمان بومی است .

هدف سوم : بررسی ارتباط بین توان میان فرهنگی معلمان غیر بومی و دقت نمره دهی آنان به این دو کنش کلامی در مقایسه با انگلیس معلمان بومی است .

هدف آخر این تحقیق کشف تاثیر آموزش سنجش منظورشناسی به دقت نمره دهی معلمان غیر بومی در مقایسه با نمره دهی معلمان بومی است .

پ. روش تحقیق شامل تعریف مفاهیم، روش تحقیق، جامعه مورد تحقیق، نمونه گیری و روش های نمونه گیری، ابزار اندازه گیری، نحوه اجرای آن، شیوه گرد آوری و تجزیه و تحلیل بوداده ها:

به منظور دستیابی به هدف تحقیق 12 موقعیت آزمون تکمیل گفتمان عذرخواهی و رد درخواست همراه با پاسخ زبان آموزان انگلیسی به هر یک از موقعیت ها توسط 50

معلم انگلیسی بومی و 50 غیر بومی نمره دهی شد. علاوه بر این، این دو گروه از معلمان غیر بومی به پرسش نامه های خود ارزشیابی توان منظورشناسی و توانش میان فرهنگی پاسخ دادند. همین دسته از معلمان در کارگاه آموزش منظور شناسی شرکت کردند تا تاثیر این کارگاه بر نمره دهی آنان سنجیده شود.

#### ت. یافته های تحقیق و نتیجه گیری:

بررسی توضیحات و معیارهای معلمان برای نمره دهی به تولید کنش های کلامی عذرخواهی و رد درخواست 5 معیار برای عذرخواهی و 11 معیار برای رد درخواست را نشان داد. آمار توصیفی برای نمره دهی عذرخواهی و رد درخواست اختلاف در موقعیت های مختلف را آشکار کرد.

سپس ارتباط بین خود ارزشیابی توانش منظورشناسی و توانش میان فرهنگی با نمره دهی آزمون تکمیل گفتمان برای عذرخواهی و رد درخواست معلمان غیر بومی سنجیده و ارتباط معنی داری را نشان داد.

انگاه با استفاده از  $t$ -test و  $\chi^2$  برای اندازه گیری تاثیر کارگاه آزمون سنجش منظور شناسی بر معلمان غیر بومی نتیجه و پیشرفت آنان و نزدیک شدن به معیارهای معلمان بومی را سنجیده شد. نتیجه این تحقیق ضرورت کارگاه آزمون سنجش منظورشناسی را برای معلمان غیر بومی خاطرنشان می کند.

## **Acknowledgements**

It has been such a privilege to be helped and supported by leading scholars throughout my program of study. I would like to express sincere gratitude to my dissertation committee members. First of all, I am very grateful and indebted to my advisor, Dr. Tajeddin for his critical and invaluable feedback, guidance, encouragement, and ongoing support. Actually he was a source of motivation for my academic achievements. I would also like to extend my sincere gratitude to my thesis readers, Dr. Khatib and Dr. Marefat, for their sage advice and valuable feedback.

I am also so grateful to Dr. Fahim, Dr. Birjandi, and my dissertation examiners, Dr. Ataii and Dr. Tajvidi.

I would also like to express many thanks to Dr. Meghdari, the head of Department of Languages and Linguistics in Sharif University of Technology, for his cooperation and encouragement in my workplace during my study. I would also like to thank the participants in my study, including native and non-native teachers who sincerely and patiently completed the questionnaires. I am also indebted to many of my friends for their support.

Last but by no means least, I would like to show my deepest gratitude to my family including my husband and my sons who have always been the reason for all my life achievements.

## Abstract

Although there are studies on pragmatic assessment, to date, literature has been almost silent about native and non-native English raters' criteria for the assessment of EFL learners' pragmatic performance. Focusing on this topic, this study pursued four purposes. The first one was to find criteria for rating the speech acts of apology and refusal in L2 by native and non-native English teachers and to examine if apology and refusal situations make any variations in the criteria applied to the rating of L2 apology and refusal discourse completion tasks (DCTs). The second was to discover the interrelationship of the non-native raters' self-assessment of their pragmatic competence and their accuracy of rating the two speech acts against native benchmark. The third was to explore the interrelationship of the non-native raters' intercultural proficiency and their accuracy of rating the two speech acts against native benchmark. The final purpose of this study was to uncover the possible effect of the training session on the accuracy of non-native raters' ratings against native benchmark. To this end, 12 different pragmatic situations for apology and refusal DCTs accompanied by an L2 learner's response to each situation were rated by 50 native and 50 non-native English teacher raters. Besides rating, the raters were asked to write their criteria for rating the response to each DCT situation. The content analysis of raters' comments revealed five apology and eleven refusal criteria. The descriptive statistics for apology and refusal rating indicated variations across situations. Then correlations between non-native raters' self-assessment of their pragmatic competence and their accuracy of speech act ratings as well as between their ratings and their intercultural proficiency revealed that there were strong relationships among them. A number of *t*-tests and chi-squares were computed to see the effect of the training session. The

results indicate that non-native raters approached native benchmark in terms of rating and criteria after the training session. This study bears evidence to the necessity of rater training and informed, rubric-based pragmatic rating.
